Topping-off ceremony held at Hutchinson Metro Center

THE BRONX - A topping-off ceremony was held today to mark the completion of a new medical superstructure at the Hutchinson Metro Center.

Senior executives from Montefiore Medical Center and Simone Development Companies helped celebrate the big event. The new 280,000-square foot tower will be home to the second major ambulatory facility in the Bronx. The 11-story building will also house an innovative multi-specialty medical center.

The new facility is expected to open its doors one year from now.
