

REAL ESTATE WEEKLY

October 19, 2016

Simone Development Companies announced the appointment of **Megan M. Guy** as Development Director for the Simone Healthcare Development unit.

Simone Healthcare focuses on delivering high quality medical spaces for modern healthcare tenants, through ground up development and

repositioning of existing properties.

Guy, who joins after her tenure at The Related Companies, has worked in the real estate and construction industries for more than eight years and brings extensive development knowledge and experience to the Simone Healthcare Development team.

Guy will have responsibilities in all aspects of the acquisition, land use, design, construction, and leasing phases of the company's projects.

Prior to joining Simone, Guy served on the development team at The Related Companies. Before Related, Guy was a Senior Analyst at HFF and a real estate valuation professional at Duff & Phelps.

She received her Bachelors in Business Administration degree from George Washington University.
